PROFESSIONAL SUMMARY

Results-driven **Software Engineer cum Flutter Developer** with **3+ years of hands-on experience** in building high-performance mobile applications across **Android and iOS platforms**. Demonstrated expertise in **Flutter, Dart, Firebase, and API integrations**, with a strong grasp of Agile practices. Adept in designing scalable fintech and trading applications with a user-centric approach. Holds a **Diploma in Computer Engineering** from the State Board of Technical Education.

KEY SKILLS

- Flutter
- Dart
- Firebase
- REST API
- UI/UX
- Android
- iOS
- State Management
- App Deployment
- Debugging

WORK HISTORY

Software Engineer, 03/2022 - 03/2025
Geojit Technologies – Kochi, Kerala, India

- Developed and deployed Flip, a trading platform supporting live market data and real-time trading.
- Designed and built Smartfolios, a mobile investment app offering personalized investment insights.
- Led the revamp of FundsGenie, integrating SQLite for offline access and improved data handling.
- Designed scalable UI with custom reusable widgets for performance optimization.
- Integrated MoEngage for real-time user engagement and in-app notifications.
- Implemented Firebase Authentication and Firestore integration for secure backend connectivity.
- Applied Cubit and GetX patterns for robust and responsive state management.
- Collaborated with UI/UX designers and backend teams for efficient delivery of new features.
- Performed rigorous testing, debugging, and optimization, improving app stability and load speed.
- Oversaw version control, deployment updates, and project coordination through Azure DevOps.

EDUCATION

Diploma in Computer Engineering
State Board of Technical Education - Calicut, Kerala, India

CERTIFICATIONS

Certified Flutter & Android App Developer – Ralfiz Technologies

PROJECT

Flip – Mobile Trading App

Built for iOS and Android using Flutter; enabled live trading and asset management.

Used Hive for local data caching; implemented Cubit for state handling.

Integrated MoEngage for engagement analytics.

Smartfolios – Investment Portfolio App

Created seamless UI with GetX for dynamic data visualization.

Developed a unified login module and API-driven real-time data fetching.

FundsGenie – Budgeting & Finance Platform (Revamp)

Revamped UI with Flutter; implemented SQLite for offline data access.

Used Cubit to manage state complexity and optimize app performance.

TECHNICAL SKILLS

Programming Languages: Dart | Kotlin | Swift | Android Native

Frameworks & State Management: Flutter | BLoC | Cubit | GetX | Provider

Backend & APIs: RESTful API | Firebase (Auth, Firestore, Push Notifications)

Local Storage: Hive | SQLite

Tools & Platforms: Android Studio | Xcode | VS Code | Postman | Git | GitHub

Project Management: Microsoft Azure DevOps | Excel | Canva
